Profile

Since 2002 I have worked on scripted and unscripted material and across many genres, including drama, comedy, factual, ob-doc, reality, documentary, entertainment, "making of" specials for DVD, behind-the-scenes, short format, promos & online programming. I edit on both Avid and FCP but Avid is my first and preferred 'language'!

I worked in L.A. for a number of years (almost 8yrs; first as an edit assistant and then as an editor) on numerous network and cable shows or documentaries. I learned in fast-paced, deadline driven environments and developed excellent story and music sensibilities. I adapt quickly to different formats and styles and am able to edit-produce ('preditor') my own segment/episode working creatively to bring out the best story possible. I have successfully cut in sign language as well as several foreign languages - some of which I speak, some I don't!

Mostly I bring a love and passion for editing to everything I work on and particularly enjoy drawing on my theatre background to help in the edit. Please see my website for selected clips.

Sun, Sex and Suspicious Parents	Ob-doc/Reality	RDF Television BBC Three	Teenagers take their first summer holiday abroad without their parents, who are secretly watching everything that unfolds.
